Poznań, 13.12.2024

MODERNLOG Trade Fair for Logistics, Transport and Storage is The Key Event for the Logistics Sector in Poland.

MODERNLOG is the premier meeting place for the logistics sector in Poland, showcasing cutting-edge solutions in automation, data digitization, distribution center management, process optimization, and modern warehouse equipment. The next edition will take place from **June 3-5, 2025**.

Every year, MODERNLOG attracts industry leaders from Poland and abroad, including system integrators, manufacturers, and distributors of solutions for Logistics 4.0 and the warehouses of the future. The Trade Fair features product premieres, live demonstrations of logistics processes in the specially designed In4Log Zone, and the Smart Warehouse Conference.

The thematic scope of MODERNLOG emphasizes innovative solutions for future-ready warehouses, as well as system proposals tailored to the e-commerce and omnichannel markets.

Exhibition

The MODERNLOG exhibition reflects current market trends and challenges, with a strong focus on Logistics 4.0 solutions and modern warehouse equipment. Attendees can explore product innovations from Poland and abroad in areas including:

- Internal transport technologies,
- Storage systems,
- Packaging and identification systems,
- Software and IoT solutions,
- Logistics services.

In4Log Zone

In the dedicated In4Log Zone, visitors will experience live demonstrations of logistics processes. Over three days, attendees can observe operational machines, explore on-site warehouse workflows, and

discover optimization strategies. These presentations are organized in partnership with Medialog Publishing and a wide network of technology partners.

Smart Warehouse Conference

The Smart Warehouse Conference is Poland's largest and most significant logistics industry event, focusing on warehouse automation, robotics, and digitization—key elements of Logistics 4.0 in the Industry 4.0 era.

The next edition of this technology conference for the supply chain sector will take place from June 4-5, 2025, under the theme “Logistics is the Heart of E-Commerce.”

During the two-day event, expert lectures and panel discussions will be held on the main stage and partner stages, addressing topics such as: AI, IoT, and Digitalization, Robotics and Future Technologies, E-Commerce and Marketplaces, Fulfillment and 3PL Logistics, Warehouse Automation, and People and Operations.

A Platform for Innovation

MODERNLOG is held alongside ITM Industry Europe, the largest industrial Trade Fair in this part of Europe. The simultaneous organization of these events creates a unique platform for knowledge exchange, showcasing innovative products, and presenting pioneering solutions.

Additionally, the Subcontracting Industrial Cooperation Fair takes place at the same time, further enriching this gathering of industry leaders.
