

MODERNLOG 2026 — We Reveal the Date of Poland's Largest Logistics Trade Fair

The next edition of the MODERNLOG Trade Fair of Logistics, Transport and Storage will take place from May 26 to 28, 2026, offering companies and professionals a unique opportunity to showcase modern technologies, gain knowledge, and establish key business relationships.

For years, MODERNLOG has been regarded as the premier meeting place for experts and solution providers in the field of modern warehouses and distribution centers. Exhibitors will present innovative automation and robotics systems, intelligent software supporting logistics processes, and advanced devices that streamline daily operations in warehouses.

In addition to a rich exhibition area, visitors will have the chance to attend the prestigious Smart Warehouse conference, focusing on the latest trends in warehouse automation and digitalization. There will also be live demonstrations of machinery and technologies in the special In4Log demo zone, which attracts a growing number of professionals with every edition.

Organizers emphasize that participating in MODERNLOG 2026 is not only an opportunity to discover innovations but also to engage in direct conversations with experts and business partners from Poland and abroad. The event draws thousands of managers, business owners, and specialists responsible for optimizing logistics and warehouse processes every year.

MODERNLOG also features numerous product premieres, expert panel discussions, and hands-on demonstrations of cutting-edge solutions that support the everyday work of logistics and warehousing companies.

Be sure to mark your calendar for May 26–28, 2026, and plan your participation in the most important event for the logistics sector in Poland. Organizers invite both exhibitors and visitors to co-create this event that sets the trends for the entire industry.
